Once characteristic of the Val Sarentino/Sarntal Valley is the care spent on the villages and the landscape: it can be seen everywhere, from the well-tended farmsteads and paths to the flowers in the gardens and at the windows. Yet traditional and modern exist quite naturally alongside each other. Many of us, such as the folklorist Maria Kröss, make it their task to keep these customs alive, making each visit to the Val Sarentino/Sarntal Valley an event and an experience.

RESTAURANT TERRA
The Magic Place - Relais & Châteaux

In June, Heinrich Schneider was a guest chef at the famous Restaurant Ikarus in Salzburg, joining the prestigious selection of international celebrity chefs.

In November, Terra was named „Restaurant of the Year 2024“ by the renowned restaurant guide Falstaff. Falstaff writes „Many of the delicious fruits of the forest are on the menu at Terra: all kinds of mushrooms and berries, but lichen, bark and tree needles are also on the list of ingredients. Heinrich Schneider has his own style in the kitchen.

The coordination of the individual ingredients is superb. Heinrich’s sister Gisela Schneider provides the perfect wine accompaniment.

The siblings have been running Terra for 25 years and have worked their way to the top with courage, passion and hard work. And yet they have always remained grounded. Entering Terra is like coming home to friends. Terra means warm hugs, happy moments together, siblings who are more than just star chefs and sommeliers. It’s about people with passionate hosts who are there for their guests all day long. ■

Close to nature.

The Sarentino Valley is a true paradise for hikers. It offers a variety of hiking paths for all demands. Easy-going walkers will be satisfied, as well as demanding mountaineers. The valley offers leisurely and easy excursions whilst well marked hiking paths lead to higher locations with real alpine huts, traditional alpine pastures or to one of the more than 140 mountain peaks.

Seven days Sarentino Valley.

The Val Sarentino/Sarntal Valley "Hufeisentour" is a real adventure for sure-footed hikers, but also immensely popular with families with children. This high-altitude hike in the heart of South Tyrol is available in both the „extreme“ class and the „family-friendly“ variety. The six or seven stages go from hut to hut though the most beautiful spots of the Alpi Val Sarentino/Sarntal Valley Alps and offer stunning views of the ice-covered, 3.000 meter high peaks and jagged summits of the Dolomites. Further information and maps regarding the "Hufeisentour" are available at the Tourist Information Office Val Sarentino/Sarntal Valley.

Hufeisentour

HIGH MOUNTAIN TRAIL IN THE
SARNTALER ALPS

Would you like to discover the beauty of the Sarentino Alps in small groups? If so, guided tours are just the thing for you. Experienced guides help the guests appreciate the little wonders of nature, tell interesting stories and answer everyone's questions.

Lots of fun at the summit storming.

The sports-loving biker will be amazed at the unexpected possibilities. But before you get ready you should remember that steep ascents are normal in a mountainous region like the Sarentino Valley. You should get ready for 600 to 700 meters difference in altitude. The less experienced cyclists may obtain detailed information at the tourist information office.

- *The technical advantages of the bike make it possible for broad sections of the population and older age groups to reach higher altitudes in the Alps. With the market maturity of e-bike technology, it is no longer the preserve of ambitious amateur athletes or mountain bikers to tackle steep mountain routes and thus reach destinations with considerable altitude difference. According to a study by www.fahrrad.de, the interest of cycling enthusiasts is shifting visibly to the e-mountain bike segment, which suggests further growth in this segment.*

The possibility of completing longer tours creates the need to recharge the battery in order to continue cycling or to ensure the return to the starting point.

*As part of the project launched by **IDM South Tyrol**, the Institute for Renewable Energies **Eurac Research** has acquired five **Leitner Energy Green Loader One**. These are solar-powered, electric charging stations for facilities in mountain regions (mountain huts and refuges) for e-bikes, which were installed in five huts in South Tyrol as pilot and demonstration systems in May 2022.*

*The **Sarnatal Tourism Association** and the **Öttenbach-Glern Interest Community (Öttenbacher Alm)** have participated in this sustainable pilot project.*

▶ On holidays and often also weekdays the people of the Sarentino Valley wear their especially beautiful costumes. Especially those of the men are very different from the other South Tyrol costumes. Over the tight loden trousers with wide leather belts ("Fatsch") and braces ("Krax") they also wear the hand-knitted "Jangger", a piece of clothing which nowadays is also a very popular leisure jacket.

The host of the hut, Heiner, his wife Anni, and the whole team are famed for their hospitality, friendliness, and openness – and for the delicious, hearty dishes they prepare for the many hikers and mountainbikers who stop by at their hut. In the wintertime, the Getrum Alm is a popular sightseeing destination for snowshoe hikers and ski tour enthusiasts. The Getrum Alm is a very popular destination for locals and guests in both winter and summer.

All good reasons for why the Getrum Alm was included in the „2016 Guida Espresso.“

If it's fast food you're looking for, you won't find it here.

In the Sarentino Valley the cuisine is also touched by our traditions, and that's why we have a lot of top class restaurants. These restaurants are mentioned in guides like Espresso, Veronelli or Gambero Rosso. They offer culinary highlights all year round, e.g. the "Sarnar Morgeti-Essn", "Sarentino for Gourmets" or the "Sarentino Speciality Week". The best wines from South Tyrol, Italy and internationally renowned wine countries accompany the delicious food.

Restaurant La Fuga

This is how a Sarentino fountain of youth looks like.

The Sarentino farmers follow the rules of nature. And they already knew in bygone days that the oil from the Sarentino dwarf pines gives energy and cures quite a few ailments. Today the „pinus sarentensis - the energy of the Alps“, is not only a cure-all for the mountain farmers, but also an ingredient of the health and cosmetic product line “Trehs” which is used in Sarentino wellness hotels and by Eschgfeller – breath of the mountains.

Skilled craftsmen.

► *The Sarentino people are especially proud of an over 200 years old craft: the quill embroidery. But this is not the only cultural asset, also wood sculpture, wood turning, manual weaving, the gold work and the job of the stonemason are still alive in the Sarentino Valley.*

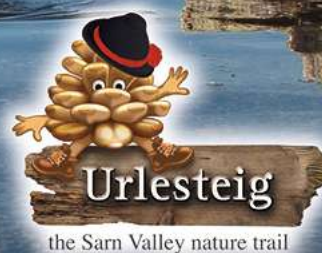

Bustling activity in the village.

▶ *Everyone talks about local supply – we practise it in the historical streets of Sarentino. The many corner shops with friendly service and competent advice are a real treasure chest for everyday essentials, for a special present or for the many original Sarentino products.*

Papa, what's the next adventure?

▶ When hiking along the Urlesteig in Reinswald, children play at being pirates, explorers, mountain-climbers, and animal experts. They can ride a raft over the pond, climb around on a giant dragonfly, look for the exit from the Swiss Pine Maze, and learn lots of interesting things about plants and animals. The quiz hike on the Legend Trail in Aberstückl is equally exciting. Parents should always be prepared to answer the question "What's the next adventure?"

Breath deeply and set off at Reinswald.

- ▶ *At the end of the valley is the romantic village of Reinswald: a small, family-friendly skiing area which is connected to the Ortler Skiarena. Toboggan, skies or snowboard – fun is guaranteed. Now especially exciting with the new Reinswald snow and toboggan parc. The 4-seat chair lift, the 6-seat gondola lift or the ski lift take you in just a few minutes up to a height of 2.500 metres.*

Here it's fun to go to school.

Perfect curves, perfect momentum! Skiing is much more fun when you do it properly. Which is precisely what we can teach you to do! Enjoy winter sports even more by acquiring the right techniques. Learn the winter sport you've always dreamed of learning, polish your technique or perfect your skill. Our team of qualified ski and snowboard experts are here to help!

The right place to tour.

The Sarentino Valley Alps are the ideal place for ski tour enthusiasts and freeriders. Depending upon your individual level of skill, you can enjoy your preferred sport either at the foot of majestic snow-capped mountains or through extensive forests. And if you want to go on ski tours, you can purchase the new winter map with over 40 suggested tours at the Tourism Agency in Sarentino Village.

► *Escape the valley and – even if you aren't a skier – enjoy the pristine beauty of this winter wonderland. Your comfortable snowshoes will prevent you from sinking into the snow and enable you to make good time. Explore this idyllic landscape of forests and meadows! After a hearty refreshment in one of our cozy alpine huts, you might want to speed back into the valley by sled.*

There are three charming apartments directly on our farm. We have two charming vacation apartments right on our farmstead. Both in our new farmhouse and in the traditional tower, the view of the entire village of Sarentino village is overpowering.

With us you experience life up close on a South Tyrolean farm.

And if you come visit us at the right time, you'll be tempted by the aroma of freshly smoked bacon in the air. You're sure to notice the difference when you bite into our unique, home-made smoked bacon.

Depending upon the time of year, you can start wonderful hikes from here, visit the nearby Reinswald Ski Area, or just relax and forget your everyday worries.

It's the perfect place to enjoy your holidays in the country. Unspoiled nature as far as the eye can see.

Made for people who don't always take everything so seriously - and are ready for a rustic valley with unforgettable encounters. A place characterised by young people with flair. We talk the way we like to talk. Cooking the way Grandma Marianne taught us. A hotel that is neither a lodge nor a lodge nor a lotsch. Much more a place of encounter. You can do (almost) anything here: in the cold season, you can whizz down the slopes in the ski area right next door or stomp through the idyllic winter landscape. In summer, a number of hiking trails start right on our doorstep and lead you over hill and dale to tranquil mountain lakes and remote peaks. After your outdoor adventure, you can sample Sarnèr specialities, South Tyrolean and Mediterranean delicacies in our restaurant, relax in the panoramic wellness area on the top floor or enjoy intimate togetherness in your room with a view of the summit.

We are fascinated by snow, perhaps because of its purity, perhaps because of its fleeting nature, or perhaps just because we love to play and have fun. We never tire of the splendid white covering with its abundance, its softness, its unrestrained nature. Reinswald is an idyllic family skiing area, with 22 km of ski runs on the sunn southern slopes of the mountain.

It is an easy yet exhilarating drive from Bolzano, just 30 minutes' drive by car, now even safer easier through the new tunnel. Wheather you prefer skiing, snowboarding, sledging or winter walking, cross country skiing in the Val di Pennes orski touring in the Val Sarentino/Sarntal Alps, winter fun is not a matter of age – it's a question of passion.
